| <ul style="list-style-type: none"><li>• Gained hands-on experience in Java, Spring Framework, HTML, CSS, JavaScript, and React.</li><li>• Worked on real-world development projects implementing end-to-end features.</li><li>• Built dynamic UI pages and reusable templates using Thymeleaf in Spring Boot.</li><li>• Developed small-scale web applications to strengthen full-stack development concepts.</li></ul> |                    |

## TECHNICAL SKILLS

---

**Languages:** Java, JavaScript  
**Databases:** SQL, MySQL  
**Front-End:** HTML5, CSS3, Bootstrap, jQuery, React.js  
**Back-End:** Hibernate, JPA, JDBC, JSP, Servlets, Spring Boot, REST API  
**Tools & Concepts:** Maven, Multithreading, File Handling, MVC, OOPs

## PROJECTS

---

- Online Job Portal**
- Developed a full-stack Job Portal using Spring Boot, Thymeleaf, and MySQL.
  - Implemented role-based access for Admin, Employers, and Users.
  - Features include job posting, resume upload, application tracking, and secure authentication.
  - Used Spring Security with JPA/Hibernate for authorization and data persistence.
- Event Management System (JSP, Servlet, JDBC)**
- Web-based application enabling users to register, log in, browse events, and book events.
  - Implemented session-based authentication using JSP, Servlets, and JDBC.
  - Integrated MySQL database for event and user management.

## LANGUAGES

---

English, Hindi, Marathi
